

17 January 1980

MEMORANDUM FOR THE RECORD

SUBJECT: Jogging Trail Project

STATINTL

NTL 1. On this date I had a discussion with [REDACTED] of the Office of Real Estate and Construction concerning construction of walking and jogging trails in the athletic-recreation area. [REDACTED] met with me in response to Chief/BSD's memo on the subject dated 25 September 1979. Messrs. [REDACTED] and [REDACTED] were also in attendance. STATINTL

NTL 2. [REDACTED] knew virtually nothing about the proposed walking/jogging trails except for the information contained in Chief/BSD's memo and the memo from the Director of Security dated 12 September 1979 agreeing to cut a new gate in the perimeter fence. [REDACTED] said that his predecessor, [REDACTED] had previously worked on this project but there was little in their files on the subject. I showed [REDACTED] our copy of the map produced by [REDACTED] in November 1978 which presented possible walking/jogging trails. [REDACTED] said this was the first he had seen of this and asked if he might take it to make a copy. I discussed with [REDACTED] previously how the athletic-recreation came about and how it was funded both with appropriated funds and \$63,500.00 of EAA money. I also volunteered to [REDACTED] that in my opinion no further funding from EAA could be relied on for the foreseeable future. STATINTL

NTL

3. Thereafter, a general conversation took place of what type of surface the trails should have, appropriate width, etc. At the conclusion of the meeting [REDACTED] said he would like to see the area in question and [REDACTED] volunteered to give him a tour. [REDACTED] took our map of the area, said he would return it or a copy and would let me know what he was able to find out regarding renewing this project. STATINTL
